

Polypropylene Bormed™ DM55pharm

Description

Bormed DM55pharm is a polypropylene homopolymer

This grade is suitable for the manufacturing of non-oriented films on chill roll process or wather bath technology.

CAS-No. 9003-07-0

Applications

Bormed DM55pharm has been evaluated according to different regulations and norms. Typical applications are mentioned below for Medical devices or Pharmaceutical & Diagnostic packaging. However, Borealis should be consulted for final approval to evaluate the use of Bormed DM55pharm .

Blister for tablets
Blister for pills

Capillary tubes for aerosols

This grade may only be used for the applications listed in the Product Datasheet and only to the extent that the application is within the scope of the tests set out in the Statement on Compliance to Regulations on Medical Use for that grade. If an application is not listed in the Product Datasheet, the grade can be used for such application only after express written consent of the Borealis Marketing Manager, Healthcare.

Borealis prohibits the use of any healthcare grade product in an implantable device that is introduced into the human body by surgical intervention and that is intended to remain in place following surgical procedure.

Special Features

Good contact clarity
Very good stiffness and impact balance

Very good processability
Very good thermoformability

Physical Properties

Property	Typical Value	Test Method
Data should not be used for specification work		
Melt Flow Rate (230 °C/2,16 kg)	2,8 g/10min	ISO 1133
Flexural Modulus ¹	1.350 MPa	ISO 178
Melting temperature (DSC)	164 °C	ISO 11357-3
Molecular weight distribution	Medium	

¹ Measured on injection moulded specimens, conditioned at 23 °C and 50 % relative humidity.

Bormed is a trademark of the Borealis group.

Polypropylene Bormed DM55pharm

Storage

Bormed DM55pharm should be stored in dry conditions at temperatures below 50°C and protected from UV-light. Improper storage can initiate degradation, which results in odour generation and colour changes and can have negative effects on the physical properties of this product.

More information on storage is found in our "Safety data sheet" / "Product safety information sheet".

Safety

The product is not classified as dangerous. Please see our "Safety data sheet" / "Product safety information sheet" for details on various aspects of safety, recovery and disposal of the product. For more information, contact your Borealis representative.

Recycling

The product is suitable for recycling using modern methods of shredding and cleaning. In-house production waste should be kept clean to facilitate direct recycling.

Related Documents

The following related documents are available on request, and represent various aspects on the usability, safety, recovery and disposal of the product.
