

# Polypropylene HC205TF

## 1. Identification of the substance/mixture and of the company/undertaking

**Trade name:** HC205TF  
**Material use:** raw material for plastics industry  
**Manufacturer:** Borealis  
E-mail address: product.safety@borealisgroup.com

## 2. Hazards identification

**Health:** The product is not classified as dangerous. Inhalation of dust may irritate the respiratory tract. Prolonged inhalation of high doses of decomposition products may give headache or irritation of the respiratory tract.

**Fire:** The product burns, but is not classified as flammable.

**Environment:** The product is not considered dangerous for the environment.

## 3. Composition/information on ingredients

The product is a polypropylene polymer.

Contains no substance classified as hazardous in concentrations, which should be taken into account according to EC directives.

## 4. First aid measures

No specific instructions needed.

**Skin contact:** Cool melted product on skin with plenty of water. Do not remove solidified product.

## 5. Fire-fighting measures

**Suitable extinguishing media:** Water in spread jet, dry chemicals, foam or carbon dioxide.

**Special exposure hazards:** Principal toxicant in the smoke is carbon monoxide.

## 6. Accidental release measures

Vacuum or sweep up spill. All spill of material must be removed immediately to prevent slipping accidents.

## 7. Handling and storage

**Handling:** During processing and thermal treatment of the product, small amounts of volatile hydrocarbons may be released. Provide adequate ventilation. Local exhaust ventilation may be necessary. Avoid inhalation of dust and decomposition fumes. Dust from the product gives a potential risk for dust explosion. All equipment shall be grounded.

**Storage:** Safety aspects do not require any special precautions in terms of storage.

**Polypropylene**  
**HC205TF****8. Exposure controls/personal protection**

Provide adequate ventilation. Local exhaust ventilation may be necessary.

**9. Physical and chemical properties**

Appearance: solid, natural colour

Odour: odourless

Melting point/range: 130 - 170 °C

Density: 0,9 - 1,0 g/cm<sup>3</sup>

Ignition temperature: > 320 °C

Solubility(ies): insoluble in water

**10. Stability and reactivity**

The product is a stable thermoplastic, with no chemical reactivity.

**11. Toxicological information**

The product is not classified as dangerous according to Directive 1999/45/EC. Inhalation of dust may irritate the respiratory tract. Prolonged inhalation of high doses of decomposition products may give headache or irritation of the respiratory tract.

**12. Ecological information**

The product is not considered dangerous for the environment.

**13. Disposal considerations**

Reuse or recycle if not contaminated. The product may be safely used as fuel. Proper combustion does not require any special flue gas control. Check with local regulations.

**14. Transport information**

The product is not regulated by ADR/RID, IMDG or IATA.

**15. Regulatory information**

In accordance with Directive 1999/45/EC, the product does not need to be classified nor labelled.

Label:
