Polyolefins and Base Chemicals

Please be assured that Borealis has performed all registrations according to the REACH Regulation ((EC) No 1907/2006) and complies with all related REACH obligations. Our REACH registration status can be seen at:

http://www.borealisgroup.com/en/company/chemicals-safety/reach/

Under the section REACH / "Registered Substances" we provide a list of substances, which Borealis has registered, including the registration numbers.

As polymers are exempt from REACH registration, no registration information on individual polyolefin grades can be provided. However, Borealis confirms that all relevant monomers and other ingredients in our polyolefin and fertilizer products are registered by Borealis or its suppliers and are fully REACH compliant if at least one of the two following sentences apply to you:

1. You are situated in an EU or EEA country and are directly supplied by any Borealis subsidiary.
2. You are supplied with Borealis material that was manufactured/formulated in Borealis' EU production plants.
