

# Wellman Engineering Resins

## MATERIAL SAFETY DATA SHEETS

### SKIN CONTACT :

As a solid no effect, nylon resins are normally not irritating to the skin.  
Contact with the viscous melt (>430°F) will cause severe skin and body burns.

### INGESTION :

Solid nylon polymer presents no problem since it is insoluble in body fluids and biologically inert.

### CHRONIC EFFECTS / CARCINOGENICITY:

None of the components in these materials are listed by IARC, NTP, OSHA or ACGIH as carcinogens.

### TERATOLOGY (BIRTH DEFECT) INFORMATION :

### REPRODUCTION INFORMATION :

---

## Section 4. First Aid Measures

---

### INHALATION :

Remove to fresh air and get medical attention if dizziness or nausea occurs.

### EYE CONTACT :

No specific treatment for exposure under normal conditions. Get medical attention if irritation persists.  
For contact with viscous melt get immediate medical attention.

### SKIN CONTACT :

No specific treatment under normal conditions as nylon is not irritating to the skin.  
For contact with viscous melt get immediate medical attention.

### INGESTION :

No specific treatment since nylon polymer is biologically inert. Seek medical attentions and treat as symptomatic.

### NOTE TO PHYSICIAN :

# Wellman Engineering Resins

## MATERIAL SAFETY DATA SHEETS

---

### Section 5. Fire Fighting Measures

---

#### FLAMMABLE PROPERTIES:

FLASH POINT : Not determined for solid product. METHOD USED : NA

#### FLAMMABLE LIMITS

LFL : NA UFL: NA

#### EXTINGUISHING MEDIA :

Water Spray, Foam, Dry Chemical, CO<sub>2</sub>

#### FIRE & EXPLOSION HAZARDS :

Accumulation of dust from grinding or machining operations could present a fire hazard

#### FIRE FIGHTING INSTRUCTIONS :

#### FIRE FIGHTING EQUIPMENT :

Wear self-contained breathing apparatus, MSHA/NIOSH approved (or equivalent) and full protective gear.

---

### Section 6. Accidental Release Measures

---

No protective measure required unless the polymer is involved in a fire situation. See section 5 above.

Spilled pellets are a slip hazard, contain and vacuum or sweep up material for salvage or disposal.

---

### Section 7. Handling and Storage

---

Store material in original packing or suitable containers under dry conditions in accordance with good material handling practices.

---

### Section 8. Exposure Controls / Personal Protection

---

#### ENGINEERING CONTROLS :

Good general ventilation should be sufficient to control normal airborne levels. Add local exhaust ventilation as needed.

#### RESPIRATORY PROTECTION :

None should be needed for normal working operations.

# Wellman Engineering Resins

## MATERIAL SAFETY DATA SHEETS

### SKIN PROTECTION :

For solid materials normal good industrial hygiene practice to minimize skin contact.  
For working with potential contact with molten material use heat resistant gloves with sleeve protection for arms and facemasks are recommended for eye and face protection.

### EYE PROTECTION :

Wear safety glasses or goggles for all operations. When working with molten material ensure protection from splashes.

### EXPOSURE GUIDELINE (S) :

As a nuisance dust: TLV 10 mg/m<sup>3</sup>  
PEL 15 mg/m<sup>3</sup>

---

### Section 9. Physical and chemical Properties

---

APPEARANCE :	Cylindrical Pellets	PHYSICAL STATE :	Solid
BOILING POINT :	Not applicable	SOLUBILITY IN WATER :	Insoluble
EVAPORATION RATE :	Not applicable	SPECIFIC GRAVITY :	
FREEZING POINT :	NA	VAPOR DENSITY :	NA
MELTING POINT :	430°F	VAPOR PRESSURE :	NA
MOLECULAR WEIGHT :	NA	VISCOSITY :	NA
ODOR :	Slight	% VOLATILE :	0.5% max at 220°F
pH :			

---

### Section 10. Stability and Reactivity

---

#### CHEMICAL STABILITY :

Stable. Temperatures above 650°F will cause decomposition in the presence of oxygen.

#### INCOMPATIBILITY :

Incompatible or attacked by concentrated acids, phenols, calcium chloride, zinc chloride and oxidizing agents.

#### HAZARDOUS DECOMPOSITION PRODUCTS :

Organic decomposition products such as acrid fumes, toxic oxides of nitrogen, amine type fumes, ammonia, carbon monoxide, carbon dioxide.

#### HAZARDOUS POLYMERIZATION :

Will not occur.

---

REPRODUCTION :

MUTAGENICITY :

SENSITIZATION :

---

### Section 12. Ecological Information

---

ECOTOXICOLOGICAL INFORMATION :

Nylon polymer is non toxic. Nylon pellets should be kept out of waterways and other locations where they could be ingested by wildlife and eventually fill the stomach of an animal.

DISTRIBUTION :

Pellets will flow and fall easily from damaged packages, leaks in air conveying lines and bulk containers such as silos.

CHEMICAL FATE INFORMATION :

Nylon polymer will not degrade biologically except at an infinitesimal rate and so will remain in place until cleaned up.
