Subject : Ad Majoris position with regard to the REACH regulations : pre-registration and SVHC

Dear Customer,

As of June 2007, the European Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Autorisation and Restriction of Chemicals (REACH) entered into force. From June 1, 2008 until December 1, 2008 manufacturers and importers must pre-register their substances currently on the market to make sure that they can be used in EC after December 1, 2008.

As our compounds are considered as preparations, they must not be pre-registered.

Please find below not only the different actions ever made but also our plan for the next months.

I hope you received hereby the necessary information.

Sincerely yours,

LAFFONT Emilie

REACH: Standard Communication Along the Supply Chain

Declaration of intent for REACH implementation July, 2008

Please note that Ad Majoris compounds are considered as [preparations](#).

1- We confirm that [we understand our obligations](#) under REACH.

2- We have confirmed with the actors in our supply chain, that [the intention is to register](#) for your use(s) the substances that they pre-register.

3- Ad Majoris products do not contain any substances likely to be included in the candidate list.

REACH: Pre-registration and SVHC November, 2008

Pre-registration :

The deadline for pre-registration is the first December of 2008. Therefore, we began to check that all substances we used were pre-registered by our suppliers, we are waiting these information for the first months of the year 2009. Then, we will know the registration deadline of each substance.

We will let you know if a substance was not pre-registered.

Substances of Very High Concern, SVHC :

At the end of October, 2008, The European Agency made known a first list of Substances of Very High Concern. Please find below these 15 substances.

[We inform you that our compounds do not contain any of these substances.](#)

For your information, the agency is expected to update this list during the year 2009. Then, we will send you a list of all “products” that contain substances on the candidate list within 45 days of its publication.

List of SVHC, dating from the 28th of October, 2008

Substance name	EC number (CAS number)	Basis for Identification as a SVHC
Anthracene	204-371-1	Persistent, bioaccumulative and toxic
4,4'- Diaminodiphenylmethane	202-974-4	Carcinogen, cat. 2
Dibutyl phthalate	201-557-4	Toxic for reproduction, cat. 2
Cobalt dichloride	231-589-4	Carcinogen, cat. 2
Diarsenic pentaoxide	215-116-9	Carcinogen, cat. 1
Diarsenic trioxide	215-481-4	Carcinogen, cat. 1
Sodium dichromate	234-190-3 (7789-12-0 10588-01-9)	Carcinogen, cat. 2; Mutagen, cat. 2 Toxic for reproduction, cat. 2
5-tert-butyl-2,4,6-trinitro-m-xylene (musk xylene)	201-329-4	Very persistent and very bioaccumulative
Bis (2-ethyl(hexyl)phthalate) (DEHP)	204-211-0	Toxic for reproduction, cat. 2
Hexabromocyclododecane (HBCDD) and all major diastereoisomers identified (α – HBCDD, β -HBCDD, γ -HBCDD)	247-148-4 and 221-695-9 (134237-50-6, 134237-51-7, 134237-52-8)	Persistent, bioaccumulative and toxic
Alkanes, C10-13, chloro (Short Chain Chlorinated Paraffins)	287-476-5	Persistent, bioaccumulative and toxic Very persistent and very bioaccumulative
Bis(tributyltin)oxide	200-268-0	Persistent, bioaccumulative and toxic
Lead hydrogen arsenate	232-064-2	Carcinogen, cat. 1 Toxic for reproduction cat. 1
Benzyl butyl phthalate	201-622-7	Toxic for reproduction, cat. 2
Triethyl arsenate	427-700-2	Carcinogen, cat. 1 ^l
