IN THE BUSINESS OF BETTER

More than finding the perfect polymer, our team and personalized process help our customers grow.

For over thirty years, Entec has helped grow our customers' businesses by forging strong, trust-driven partnerships. Our global footprint spans the United States, Canada, Mexico and beyond, resulting in an international network ready to support a variety of projects and industries.

With a dedicated sales staff leveraging decades of experience, technical guidance provided by degreed engineers and unparalleled logistics expertise, we lead our customers through every stage of their project's process. From concept to production, we deliver a total solution that not only meets exacting material needs, but also gives our customers a competitive edge in their respective markets.

We rise to our customers' every challenge

THE ENTEC DIFFERENCE

Expert Team – We inspire excellence from every member of our team to deliver the right solutions for our customers' every need through an empowered workforce and a brand forged in family values.

Personalized Process – We listen and focus on getting to know our customers' objectives, identifying ideal solutions to even the most unique challenges and providing one-on-one support from start to finish.

Unmatched Access – We partner with more than 30 leading resin suppliers to serve our customers with the most comprehensive selection of plastics in the industry. Resulting in finding the right solutions for every project, every time.
