
Integra™ Concentrate FC1 Black

PolySource, LLC - *Black Pigment Additive*

General Information

Product Description

Colorant, FDA & NSF compliant, Black, PE Based Carrier

- Concentrate FC1 is suitable for use in most engineering resins.
 - It is recommended that Concentrate FC1 not be dried with resins where the dryer air temperature is greater than 180°F
 - Concentrate FC1 does not require drying
-

General

Material Status	• Commercial: Active
Availability	• North America
Agency Ratings	• FDA • NSF

Properties ¹

Additives General

Nominal Value

Additives Category	Additive -- Pigment -- Black
Carrier Resin	Polyethylene or ethylene-olefin copolymer (PE)

Notes

¹ Typical properties: these are not to be construed as specifications.
