

## Prime POLYGRAPH.ics™ PP

Our Prime POLYGRAPH.ics is a unique brand of polyolefin products that provide printers/processors a highly versatile material that offers exceptional durability, stress crack resistance, and weather resistance.

**Prime POLYGRAPH.ics is available in polyethylene (PE) and polypropylene (PP) sheets and rolls.**

### Prime POLYGRAPH.ics PP

Prime POLYGRAPH.ics PP is a polypropylene material routinely chosen for superior yield, recycling characteristics, and its reduction in energy consumption in production and transportation.

### Prime POLYGRAPH.ics PP Clear

Prime POLYGRAPH.ics PP is a clear polypropylene which adds a “clear” advantage in product yield, material composition, and recyclability for those looking to replace other clear materials.

### Applications

Indoor/outdoor signage, shelf talkers, aisle markers, counter mats, menus, folding cartons, stationary items, security/safety tags, booklets, pump toppers, and horticultural tags/labels.

### Sustainability

Sustainability includes considering the product’s circularity or end of life during the design of the finished product. Prime POLYGRAPH.ics PP is a polypropylene (recycle code 5) that can be recycled as a post-industrial or post-consumer product. Contact your Primex Territory Business Manager or check with local recycling facilities to determine where it is collected and recycled.

**Primex Sustainability: A better tomorrow, starting today!**
