

Prime Ultra-HIPS

Our Prime Ultra-HIPS is a high impact polystyrene material designed for applications requiring enhanced impact or environmental stress crack resistance (ESCR).

Provides excellent toughness, stiffness, impact strength, and good chemical resistance.

Customization

Prime Ultra-HIPS originated as a direct response to a customer's specific need. It's the top choice for discerning buyers seeking high-performance styrene for cold environments. Its superior cold tolerance truly sets it apart.

Our Prime Ultra-HIPS can be color matched to meet your specific requirements through our vertical integration with Primex Color, Compounding & Additives.

Applications

Ideal for freezer displays, dividers, and deep-draw thermoformed products, Prime Ultra-HIPS delivers exceptional print quality along with enhanced performance in secondary operations such as die-cutting, heat bending, and thermoforming.

Sustainability

Sustainability includes considering the product's circularity or end of life during the design of the finished product. Prime Ultra-HIPS is a polystyrene (recycle code 6) that can be recycled as a post-industrial or post-consumer product. Contact your Primex Territory Business Manager or check with local recycling facilities to determine where it is collected and recycled.

Primex Sustainability: A better tomorrow, starting today!
