

A subsidiary of ICC Industries Inc.

Print-X A Cor-x Product

Characteristics

Primex Plastics Print-X is the smoothest printable corrugated plastic in the industry. Prime Cor-X Print-X, available in widths up to 104", provides a smooth even surface for silk-screen printing, including four-color process printing. Benefits include shorter set-up times and less wasted material.

Print-X is ideal for use in either indoor or outdoor signage. Applications include pole signs, soft drink displays, real estate and political signs, or any type of semi-permanent display.

For more information or samples of Print-X, please call your Primex sales representative or the plant nearest you.
