

Product name	EM-1100B	SDS Number:	1164340_13664776
Date of revision	10 July 2025	Version	0.03
First issue date	26 January 2024		

# SAFETY DATA SHEET

EM-1100B

## Section 1. Identification

Product name	: EM-1100B
Product description	: Zeolite Catalyst
<u>Relevant identified uses of the substance or mixture and uses advised against</u>	
Identified uses	: catalyst
Uses advised against	: This product is not recommended for any industrial, professional or consumer use other than the Identified Uses above.
Supplier	: ExxonMobil (China) Investment Co., Ltd. 17/F., Metro Tower 30 Tian Yao Qiao Road Shanghai 200030 China
24 Hour Emergency Telephone	: (+86)0532-83889090 (NRCC)
Supplier General Contact	: (+86) 400-820-6130
E-Mail	: consumerservice@mobil.com.cn
FAX	: (+86) 021-23515968
Supplier	: EXXONMOBIL CHEMICAL SERVICES (SHANGHAI) CO., LTD Correspondence address: 1099 Zixing Road Minhang District SHANGHAI China
Supplier General Contact	: (+86) 400-820-6130
E-Mail	: consumerservice@mobil.com.cn
FAX	: (+86) 021-23515968
SDS Internet Address	: www.sds.exxonmobil.com

## Section 2. Hazards identification

Classification of the substance or mixture is in accordance with national standard GB30000 series of Specification/Rules for classification and labeling of chemicals	
<u>Emergency overview</u>	
Physical state	: Solid. [pellet]
Colour	: White
Odour	: Odourless
Classification of the substance or mixture	: Not classified.
<u>Precautionary statements</u>	
Physical and chemical hazards	: No known significant effects or critical hazards.

<b>Product name</b>	EM-1100B	<b>SDS Number:</b>	1164340_13664776
<b>Date of revision</b>	10 July 2025	<b>Version</b>	0.03
<b>First issue date</b>	26 January 2024		

## Section 2. Hazards identification

**Health hazards** : No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

**Eye contact** : No specific data.

**Inhalation** : No specific data.

**Skin contact** : No specific data.

**Ingestion** : No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Short term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

Long term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

**Environmental hazards** : No known significant effects or critical hazards.

**Other hazards which do not result in classification** : None known.

**Nota** : This material should not be used for any other purpose than the intended use in Section 1 without expert advice. Health studies have shown that chemical exposure may cause potential human health risks which may vary from person to person.

## Section 3. Composition/information on ingredients

**Substance/mixture** : Mixture

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First-aid measures

First aid

**Inhalation** : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

**Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

**Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

**Ingestion** : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

<b>Date of issue</b> / <b>Date of revision</b>	: 10 July 2025	<b>Date of previous issue</b>	: 16 July 2024	<b>Version</b>	: 0.03	2/10
--	----------------	-------------------------------	----------------	----------------	--------	------

<b>Product name</b>	EM-1100B	<b>SDS Number:</b>	1164340_13664776
<b>Date of revision</b>	10 July 2025	<b>Version</b>	0.03
<b>First issue date</b>	26 January 2024		

## Section 4. First-aid measures

**Potential acute health effects**

**Inhalation** : No known significant effects or critical hazards.

**Skin contact** : No known significant effects or critical hazards.

**Eye contact** : No known significant effects or critical hazards.

**Ingestion** : No known significant effects or critical hazards.

**Over-exposure signs/symptoms**

**Inhalation** : No specific data.

**Skin contact** : No specific data.

**Eye contact** : No specific data.

**Ingestion** : No specific data.

**Indication of immediate medical attention and special treatment needed, if necessary**

**Specific treatments** : No specific treatment.

**Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.

**Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

See toxicological information (Section 11)

## Section 5. Firefighting measures

**Extinguishing media**

**Suitable extinguishing media** : Use dry chemical, CO<sub>2</sub>, water spray (fog) or foam.

**Unsuitable extinguishing media** : Do not use water jet.

**Specific hazards arising from the chemical** : Adsorption of water will generate heat and possibly steam; closed containers may get very hot and build up pressure. If contact with water occurs, large quantities of heat and steam may be generated. Avoid contact with eyes. Avoid contact with skin. Avoid conditions which create dust. Avoid inhalation of dust.

**Hazardous combustion products** : metal oxide/oxides

**Special protective actions for fire-fighters** : Use standard firefighting procedures and consider the hazards of other involved materials. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Assure an extended cooling down period to prevent re-ignition. Prevent run-off from fire control or dilution from entering streams, sewers or drinking water supply. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

**NOTIFICATION PROCEDURES**

In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

**Personal precautions, protective equipment and emergency procedures**

**For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

<b>Date of issue</b> / <b>Date of revision</b>	: 10 July 2025	<b>Date of previous issue</b>	: 16 July 2024	<b>Version</b>	: 0.03	3/10
--	----------------	-------------------------------	----------------	----------------	--------	------

<b>Product name</b>	EM-1100B	<b>SDS Number:</b>	1164340_13664776
<b>Date of revision</b>	10 July 2025	<b>Version</b>	0.03
<b>First issue date</b>	26 January 2024		

## Section 6. Accidental release measures

**For emergency responders** : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

**Environmental precautions** : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

**Methods and material for containment and cleaning up**

**Small spill** : Move containers from spill area. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor.

**Large spill** : Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor. Confine the spill immediately with booms. Skim from surface Warn other shipping. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

**Precautionary measures to prevent the occurrence of secondary disasters** : Prevent entry into sewers, water courses, basements or confined areas.

Water spill and land spill recommendations are based on the most likely spill scenario for this material; however, geographic conditions, wind, temperature, (and in the case of a water spill) wave and current direction and speed may greatly influence the appropriate action to be taken. For this reason, local experts should be consulted. Note: Local regulations may prescribe or limit action to be taken.

## Section 7. Handling and storage

**Precautions for safe handling**

**Precautions for operating** : Put on appropriate personal protective equipment (see Section 8).

**Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

**Static Accumulator** : This material is a static accumulator.

**Conditions for safe storage** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls/personal protection

**Control parameters**

**Occupational exposure limits**

<b>Date of issue</b> / <b>Date of revision</b>	: 10 July 2025	<b>Date of previous issue</b>	: 16 July 2024	<b>Version</b>	: 0.03	4/10
--	----------------	-------------------------------	----------------	----------------	--------	------

Product name	EM-1100B	SDS Number:	1164340_13664776
Date of revision	10 July 2025	Version	0.03
First issue date	26 January 2024		

Section 8. Exposure controls/personal protection

Ingredient name	Exposure limits
<div>Zeolite</div> <div>aluminum oxide, non fibrous</div>	<div><b>GBZ 2.1 (China, 7/2024) [Zeolite]</b> PC-TWA 8 hours: 5 mg/m³. Form: Dust. <b>ACGIH TLV (United States, 1/2024) [Aluminum, metal and insoluble compounds]</b> TWA 8 hours: 1 mg/m³. Form: Respirable fraction.</div> <div><b>GBZ 2.1 (China, 7/2024)</b> PC-TWA 8 hours: 4 mg/m³. Form: Total dust. <b>ACGIH TLV (United States, 1/2024) [Aluminum, metal and insoluble compounds]</b> TWA 8 hours: 1 mg/m³. Form: Respirable fraction.</div>

NOTE: Limits/standards shown for guidance only. Follow applicable regulations.

For dusty conditions, ACGIH recommends for insoluble and poorly soluble particles not otherwise specified an 8-hour TWA of 10 mg/m3 (inhalable particles), 3 mg/m3 (respirable particles).

Appropriate engineering controls

Environmental exposure controls

Individual protection measures

Hygiene measures

Eye/face protection

Skin protection

Hand protection

Body protection

Other skin protection

Respiratory protection

: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. If operating conditions cause high dust concentrations to be produced, use dust goggles.

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

**Note: Physical and chemical properties are provided for safety, health and environmental considerations only and may not fully represent product specifications. Contact the Supplier for additional information.**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

### Appearance and physical state

<b>Physical state</b>	: Solid. [pellet]
<b>Colour</b>	: White
<b>Odour</b>	: Odourless
<b>Odour threshold</b>	: Not available.
<b>pH</b>	: Not applicable.
<b>Melting point/freezing point</b>	: >1200°C (>2192°F)
<b>Boiling point or initial boiling point and boiling range</b>	: Not applicable.
<b>Flash point</b>	: Closed cup: Not applicable.
<b>Evaporation rate</b>	: Not applicable.
<b>Flammability</b>	: Ignitable
<b>Lower and upper explosion limit/flammability limit</b>	: Not applicable.
<b>Vapour pressure</b>	: Not applicable.
<b>Relative vapour density</b>	: Not applicable.
<b>Relative density</b>	: 1
<b>Solubility in water</b>	: Negligible
<b>Partition coefficient: n-octanol/water</b>	: Not applicable.
<b>Auto-ignition temperature</b>	: Not applicable.
<b>Decomposition temperature</b>	: Not available.
<b>Viscosity</b>	: Not applicable.
<b>Particle characteristics</b>	
<b>Median particle size</b>	: Not available.

## Section 10. Stability and reactivity

<b>Reactivity</b>	: No specific test data related to reactivity available for this product or its ingredients.
<b>Chemical stability</b>	: The product is stable.
<b>Possibility of hazardous reactions</b>	: Under normal conditions of storage and use, hazardous reactions will not occur.
<b>Conditions to avoid</b>	: Moisture., High dust concentrations.
<b>Incompatible materials</b>	: Strong Acids, Strong Bases, water
<b>Hazardous decomposition products</b>	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Product name	EM-1100B	SDS Number:	1164340_13664776

## Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

##### Conclusion/Summary

Inhalation	: Minimally Toxic. No end point data for material. Based on assessment of the components.
Dermal	: Minimally Toxic. No end point data for material. Based on assessment of the components.
Oral	: Minimally Toxic. No end point data for material. Based on assessment of the components.

#### Irritation/Corrosion

##### Conclusion/Summary

Skin	: Negligible irritation to skin at ambient temperatures. No end point data for material. Based on assessment of the components.
Eyes	: May cause mild, short-lasting discomfort to eyes. No end point data for material. Based on assessment of the components.
Respiratory	: Negligible hazard at ambient/normal handling temperatures. No end point data for material.

#### Respiratory or skin sensitization

##### Conclusion/Summary

Skin	: Not expected to be a skin sensitizer. No end point data for material. Based on assessment of the components.
Respiratory	: Not expected to be a respiratory sensitizer. No end point data for material.

#### Germ Cell Mutagenicity

Conclusion/Summary	: Not expected to be a germ cell mutagen. No end point data for material. Based on assessment of the components.
--------------------	--

#### Carcinogenicity

Conclusion/Summary	: Not expected to cause cancer. No end point data for material. Based on assessment of the components.
--------------------	--

#### Reproductive toxicity

Conclusion/Summary	: Not expected to be a reproductive toxicant. No end point data for material. Based on assessment of the components.
--------------------	--

#### Specific target organ toxicity (single exposure)

Conclusion/Summary	: Not expected to cause organ damage from a single exposure. No end point data for material.
--------------------	--

#### Specific target organ toxicity (repeated exposure)

Product/ingredient name	Category	Target organs
EM-1100B	Not applicable.	-

Conclusion/Summary	: Not expected to cause organ damage from prolonged or repeated exposure. No end point data for material. Based on assessment of the components.
--------------------	--

#### Aspiration hazard

Conclusion/Summary	: Not expected to be an aspiration hazard. Based on physico-chemical properties of the material. No end point data for material.
--------------------	--

#### Other information

Product	: Dust may be irritating to eyes and respiratory tract.

<b>Product name</b>	EM-1100B	<b>SDS Number:</b>	1164340_13664776
<b>Date of revision</b>	10 July 2025	<b>Version</b>	0.03
<b>First issue date</b>	26 January 2024		

Section 12. Ecological information

The information given is based on data for the material, components of the material, or for similar materials, through the application of bridging principals.

Toxicity

Conclusion/Summary

- Acute toxicity
- : Not expected to be harmful to aquatic organisms.
- Chronic toxicity
- : Not expected to demonstrate chronic toxicity to aquatic organisms

Persistence and degradability

- Biodegradability
- : Material -- Expected to be persistent.

Bioaccumulation/Accumulation

- Conclusion/Summary
- : Material -- Potential to bioaccumulate is low.

Mobility in soil

- Mobility
- : Material -- Can float on water, but will sink when saturated.

Other ecological information

- Other adverse effects
- : No known significant effects or critical hazards.

Section 13. Disposal considerations

- Disposal methods
- : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Empty Container Warning (where applicable): Empty containers may contain residue and can be dangerous. Do not attempt to refill or clean containers without proper instructions. Empty drums should be completely drained and safely stored until appropriately reconditioned or disposed. Empty containers should be taken for recycling, recovery, or disposal through suitably qualified or licensed contractor and in accordance with governmental regulations. DO NOT PRESSURISE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND, OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY, OR OTHER SOURCES OF IGNITION. THEY MAY EXPLODE AND CAUSE INJURY OR DEATH.

Section 14. Transport information

	JT/T617	IMDG	IATA
UN number	 Not regulated.	Not regulated.	Not regulated.
UN proper shipping name		-	-
Transport hazard class(es)		-	-

<b>Product name</b>	EM-1100B	<b>SDS Number:</b>	1164340_13664776
<b>Date of revision</b>	10 July 2025	<b>Version</b>	0.03
<b>First issue date</b>	26 January 2024		

Section 14. Transport information

<b>Packing group</b>		-	-
<b>Environmental hazards</b>	 No.	No.	No.

**Special precautions for user** : **Transport within user’s premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Extinguishing media

**Suitable extinguishing media** :  Use dry chemical, CO<sub>2</sub>, water spray (fog) or foam.

**Unsuitable extinguishing media** :  Do not use water jet.

**Incompatible materials** : Strong Acids, Strong Bases, water

**Transport in bulk according to IMO instruments** : Not available.

Section 15. Regulatory information

**This material is not considered hazardous according to national standard GB30000 series of Specification/ Rules for classification and labeling of chemicals**

Refer to below China regulations (if applicable):

The General Rules for preparation of precautionary label for Chemicals (GB 15258-2009)  
Regulations on the Safe Management of Hazardous Chemicals  
Measures for the Environmental Management Registration of New Chemical Substances

Law of the People's Republic of China on Prevention and Control of Environmental Pollution by Solid Waste :

See Disposal Considerations section.

Inventory list
