

Product name	<i>HYJET IV-A PLUS</i>	SDS Number:	<i>201550303010_1166023</i>
Date of revision	<i>9 June 2025</i>	Version	<i>0.01</i>
First issue date	<i>9 June 2025</i>		

SAFETY DATA SHEET

HYJET IV-A PLUS

Section 1. Identification

Product name	: HYJET IV-A PLUS
Product description	: synthetic base stocks and additives
<u>Relevant identified uses of the substance or mixture and uses advised against</u>	
Identified uses	: Aviation hydraulic fluid
Uses advised against	: This product is not recommended for any industrial, professional or consumer use other than the Identified Uses above.
Supplier	: ExxonMobil (China) Investment Co., Ltd. 17/F., Metro Tower 30 Tian Yao Qiao Road Shanghai 200030 China
24 Hour Emergency Telephone	: (+86)0532-83889090 (NRCC)
Supplier General Contact	: (+86) 400-820-6130
E-Mail	: consumerservice@mobil.com.cn
FAX	: (+86) 021-23515968
Supplier	: EXXONMOBIL CHEMICAL SERVICES (SHANGHAI) CO., LTD Correspondence address: 1099 Zixing Road Minhang District SHANGHAI China
Supplier General Contact	: (+86) 400-820-6130
E-Mail	: consumerservice@mobil.com.cn
FAX	: (+86) 021-23515968
SDS Internet Address	: www.sds.exxonmobil.com

Section 2. Hazards identification

Classification of the substance or mixture according to GB 30000 series

Emergency overview

Physical state	: Liquid. [Clear]
Colour	: Violet
Odour	: Sweet
Harmful if swallowed.	
Causes serious eye irritation.	
Suspected of damaging fertility or the unborn child.	
May cause damage to organs through prolonged or repeated exposure. (adrenal)	
Harmful to aquatic life.	
Very toxic to aquatic life with long lasting effects.	
IF SWALLOWED: Get medical help. IF exposed or concerned, get medical advice. Get medical help if you feel unwell. If eye irritation persists: Get medical help.	

Product name	HYJET IV-A PLUS		
Date of revision	9 June 2025	SDS Number:	201550303010_1166023
First issue date	9 June 2025	Version	0.01

Section 2. Hazards identification

Classification of the substance or mixture
: ACUTE TOXICITY (oral) - Category 4
SERIOUS EYE DAMAGE/EYE IRRITATION - Category 2A
REPRODUCTIVE TOXICITY - Category 2
SPECIFIC TARGET ORGAN TOXICITY - REPEATED EXPOSURE - Category 2
SHORT-TERM (ACUTE) AQUATIC HAZARD - Category 3
LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 1

GHS label elements

Hazard pictograms
:

Signal word
: Warning

Hazard statements
: H302 - Harmful if swallowed.
H319 - Causes serious eye irritation.
H361 - Suspected of damaging fertility or the unborn child.
H373 - May cause damage to organs through prolonged or repeated exposure. (adrenal)
H402 - Harmful to aquatic life.
H410 - Very toxic to aquatic life with long lasting effects.

Precautionary statements

Prevention
: P203 - Obtain, read and follow all safety instructions before use.
P260 - Do not breathe vapour.
P264 - Wash thoroughly after handling.
P270 - Do not eat, drink or smoke when using this product.
P273 - Avoid release to the environment.
P280 - Wear protective gloves, protective clothing, eye protection, face protection, or hearing protection.

Response
: P301 + P330, P317 - IF SWALLOWED: Rinse mouth. Get medical help.
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P318 - IF exposed or concerned, get medical advice.
P319 - Get medical help if you feel unwell.
P337 + P317 - If eye irritation persists: Get medical help.
P391 - Collect spillage.

Storage
: P405 - Store locked up.

Disposal
: P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.

Physical and chemical hazards
: No known significant effects or critical hazards.

Health hazards
: Harmful if swallowed. Causes serious eye irritation. Suspected of damaging fertility or the unborn child.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact
: Adverse symptoms may include the following:
pain or irritation
watering
redness

Inhalation
: No specific data.

Skin contact
: Local necrosis as evidenced by delayed onset of pain and tissue damage a few hours after injection.

Date of issue/Date of revision

: 9 June 2025

Date of previous issue

: No previous edition

Version

: 0.01

2/12

Product name	<i>HYJET IV-A PLUS</i>	SDS Number:	<i>201550303010_1166023</i>
Date of revision	<i>9 June 2025</i>	Version	<i>0.01</i>
First issue date	<i>9 June 2025</i>		

Section 2. Hazards identification

Ingestion : No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Environmental hazards : Harmful to aquatic life. Very toxic to aquatic life with long lasting effects.

Contains : tributyl phosphate; phenol, isopropylated, phosphate (3:1) [triphenyl phosphate > 5%]; triphenyl phosphate and 2,6-di-tert-butyl-p-cresol

Other hazards which do not result in classification : None known.

Nota : This material should not be used for any other purpose than the intended use in Section 1 without expert advice. Health studies have shown that chemical exposure may cause potential human health risks which may vary from person to person.

Section 3. Composition/information on ingredients

Substance/mixture : Mixture

Ingredient name	% (w/w)	Identifiers
tributyl phosphate	≥50 - ≤75	CAS: 126-73-8
phenol, isopropylated, phosphate (3:1) [triphenyl phosphate > 5%]	≥10 - ≤25	CAS: 68937-41-7
triphenyl phosphate	<1	CAS: 115-86-6
2,6-di-tert-butyl-p-cresol	≤1	CAS: 128-37-0
naphthalenesulfonic acid, dinonyl-, calcium salt	≤0.3	CAS: 57855-77-3

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First-aid measures

First aid

Inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Product name	<i>HYJET IV-A PLUS</i>	SDS Number:	<i>201550303010_1166023</i>
Date of revision	<i>9 June 2025</i>	Version	<i>0.01</i>
First issue date	<i>9 June 2025</i>		

Section 5. Firefighting measures

Extinguishing media

Suitable extinguishing media : Use dry chemical, CO₂, water spray (fog) or foam.

Unsuitable extinguishing media : Do not use water jet.

Specific hazards arising from the chemical : In a fire or if heated, a pressure increase will occur and the container may burst. This material is very toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

Hazardous combustion products : Aldehydes, Incomplete combustion products, nitrogen oxides, phosphorus oxides, Smoke, Fume, sulfur oxides

Special protective actions for fire-fighters : Use standard firefighting procedures and consider the hazards of other involved materials. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Assure an extended cooling down period to prevent re-ignition. Prevent run-off from fire control or dilution from entering streams, sewers or drinking water supply. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

NOTIFICATION PROCEDURES

In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate.

For emergency responders : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.

Methods and material for containment and cleaning up

Small spill : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill : Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. Material will sink. Remove material, as much as possible,

Product name	<i>HYJET IV-A PLUS</i>	SDS Number:	<i>201550303010_1166023</i>
Date of revision	<i>9 June 2025</i>	Version	<i>0.01</i>
First issue date	<i>9 June 2025</i>		

Section 6. Accidental release measures

using mechanical equipment. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Precautionary measures to prevent the occurrence of secondary disasters : Prevent entry into sewers, water courses, basements or confined areas.

Water spill and land spill recommendations are based on the most likely spill scenario for this material; however, geographic conditions, wind, temperature, (and in the case of a water spill) wave and current direction and speed may greatly influence the appropriate action to be taken. For this reason, local experts should be consulted. Note: Local regulations may prescribe or limit action to be taken.

Section 7. Handling and storage

Precautions for safe handling

Precautions for operating : Put on appropriate personal protective equipment (see Section 8). Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Do not ingest. Avoid release to the environment. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Advice on general occupational hygiene : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Static Accumulator : This material is not a static accumulator.

Conditions for safe storage : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

Ingredient name	Exposure limits
tributyl phosphate	ACGIH TLV (United States, 1/2024) TWA 8 hours: 0.459 ppm. Form: Inhalable fraction and vapor. TWA 8 hours: 5 mg/m³. Form: Inhalable fraction and vapor. ACGIH TLV (United States, 1/2024) TWA 8 hours: 3 mg/m³. ACGIH TLV (United States, 1/2024) TWA 8 hours: 2 mg/m³. Form: Inhalable fraction and vapor.
triphenyl phosphate	
2,6-di-tert-butyl-p-cresol	

NOTE: Limits/standards shown for guidance only. Follow applicable regulations.

Appropriate engineering controls : If user operations generate dust, fumes, gas, vapour or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Product name	HYJET IV-A PLUS		
Date of revision	9 June 2025	SDS Number:	201550303010_1166023
First issue date	9 June 2025	Version	0.01

Section 8. Exposure controls/personal protection

Environmental exposure controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

Skin protection

Hand protection

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. < 1 hour (breakthrough time): Nitrile, minimum 0.38 mm thickness or comparable protective barrier material

Body protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection

: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. Recommended: organic vapour (Type A) and particulate filter

Section 9. Physical and chemical properties

Note: Physical and chemical properties are provided for safety, health and environmental considerations only and may not fully represent product specifications. Contact the Supplier for additional information.

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

Appearance and physical state

Physical state

: Liquid. [Clear]

Colour

: Violet

Odour

: Sweet

Odour threshold

: Not available.

pH

: Not applicable.

Melting point/freezing point

: Not available.

Boiling point or initial boiling point and boiling range

: 287.78°C (550°F)

Flash point

: Open cup: 160°C (320°F) [ASTM D-92]

Evaporation rate

: Not available.

Date of issue/Date of revision

: 9 June 2025

Date of previous issue

: No previous edition

Version

First issue date	9 June 2025	Version	0.01

Section 9. Physical and chemical properties

Flammability	: Ignitable
Lower and upper explosion limit/flammability limit	: Not available.
Vapour pressure	: 0.5 mm Hg [20 °C]
Relative vapour density	: Not available.
Relative density	: 1.001
Solubility in water	: Negligible
Partition coefficient: n-octanol/water	: Not applicable.
Auto-ignition temperature	: 400°C (752°F)
Decomposition temperature	: Not available.
Viscosity	: 10.1 cSt [40 °C] [ASTM D 445] 3.5 cSt [100 °C] [ASTM D 445]
Particle characteristics	
Median particle size	: Not applicable.
Pour point	: -62.22°C

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: Excessive heat.
Incompatible materials	: Strong oxidisers
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Product/ingredient name	Result
PD HYJET IV-A PLUS (AP) <C>	Rat - Oral - LD50 1.671 g/kg
tributyl phosphate	Rat - Oral - LD50 1553 mg/kg

Conclusion/Summary

Inhalation	: Minimally Toxic. No end point data for material. Based on assessment of the components.
Dermal	: Minimally Toxic. No end point data for material. Based on assessment of the components.
Oral	: Slightly toxic. Data available. Based on test data for the material. Test(s) equivalent or similar to OECD Guideline 401

Irritation/Corrosion

Conclusion/Summary

Date of issue/Date of revision	: 9 June 2025	Date of previous issue	: No previous edition	Version	: 0.01	8/12
---------------------------------------	---------------	-------------------------------	-----------------------	----------------	--------	------

Product name	HYJET IV-A PLUS		
Date of revision	9 June 2025	SDS Number:	201550303010_1166023
First issue date	9 June 2025	Version	0.01

Section 11. Toxicological information

Skin

: Negligible irritation to skin at ambient temperatures. Data available. Based on test data for the material. Test(s) equivalent or similar to OECD Guideline 404

Eyes

: Irritating and will injure eye tissue. Data available. Based on test data for the material and structurally similar materials. Test(s) equivalent or similar to OECD Guideline 405

Respiratory

: Negligible hazard at ambient/normal handling temperatures. No end point data for material. Elevated temperatures or mechanical action may form vapours, mist, or fumes which may be irritating to the eyes, nose, throat, or lungs.

Respiratory or skin sensitization

Conclusion/Summary

Skin

: Not expected to be a skin sensitizer. No end point data for material. Based on assessment of the components.

Respiratory

: Not expected to be a respiratory sensitizer. No end point data for material.

Germ Cell Mutagenicity

Conclusion/Summary

: Not expected to be a germ cell mutagen. No end point data for material. Based on assessment of the components.

Carcinogenicity

Conclusion/Summary

: Not expected to cause cancer. No end point data for material. Based on assessment of the components.

Classification

Product/ingredient name	IARC
2,6-di-tert-butyl-p-cresol	3

Reproductive toxicity

Conclusion/Summary

: May damage fertility. May damage the unborn child. No end point data for material. Based on assessment of the components.

Specific target organ toxicity (single exposure)

Conclusion/Summary

: Not expected to cause organ damage from a single exposure. No end point data for material.

Specific target organ toxicity (repeated exposure)

Product/ingredient name	Category	Target organs
HYJET IV-A PLUS	Category 2	adrenal

Conclusion/Summary

: May cause damage to organs through prolonged or repeated exposure. No end point data for material. Based on assessment of the components.

Aspiration hazard

Conclusion/Summary

: Not expected to be an aspiration hazard. Based on physico-chemical properties of the material. Data available.

Other information

Contains

: Isopropylphenyl phosphate (iPP). Reproductive / developmental toxicity screening studies in rats of products containing high concentrations of iPP adversely affected male and female reproductive performance with significant reductions in fertility and conception indices. Number of rat pups born and live litter size were decreased in groups exposed to the iPP-containing products, while pup mortality was increased. Tributyl phosphate (TBP): Studies in rats have shown an increased incidence of urinary bladder tumors following long-term feeding of TBP in the diet. No bladder tumors were observed in similar studies in mice. The relevance of these findings for humans is uncertain.

Section 12. Ecological information

The information given is based on data for the material, components of the material, or for similar materials, through the application of bridging principals.

Toxicity

Conclusion/Summary

- Acute toxicity
: Harmful to aquatic life.
- Chronic toxicity
: Very toxic to aquatic life with long lasting effects.

Persistence and degradability

Not determined.

Bioaccumulation/Accumulation

Not determined.

Mobility in soil

Not determined.

Other ecological information

- Other adverse effects
: No known significant effects or critical hazards.

Section 13. Disposal considerations

- Disposal methods
: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.
- Empty Container Warning (where applicable): Empty containers may contain residue and can be dangerous. Do not attempt to refill or clean containers without proper instructions. Empty drums should be completely drained and safely stored until appropriately reconditioned or disposed. Empty containers should be taken for recycling, recovery, or disposal through suitably qualified or licensed contractor and in accordance with governmental regulations. DO NOT PRESSURISE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND, OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY, OR OTHER SOURCES OF IGNITION. THEY MAY EXPLODE AND CAUSE INJURY OR DEATH.

Section 14. Transport information

	JT/T617	IMDG	IATA
UN number	UN3082	UN3082	UN3082

Environmental hazards	Yes.	Yes.	Yes.

Additional information

China - JT/T617

IMDG

IATA

: The environmentally hazardous substance mark is not required when transported in sizes of ≤5 L or ≤5 kg.
Tunnel code (E)

: This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 4.1.1.1, 4.1.1.2 and 4.1.1.4 to 4.1.1.8.
Emergency schedules F-A, S-F
Special provisions 274, 335, 969

: This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 5.0.2.4.1, 5.0.2.6.1.1 and 5.0.2.8.
Quantity limitation Passenger and Cargo Aircraft: 450 L. Packaging instructions: 964. Cargo Aircraft Only: 450 L. Packaging instructions: 964. Limited Quantities - Passenger Aircraft: 30 kg. Packaging instructions: Y964.
Special provisions A97, A158, A197, A215

Special precautions for user

: **Transport within user’s premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Extinguishing media

Suitable extinguishing media

: Use dry chemical, CO₂, water spray (fog) or foam.

Unsuitable extinguishing media

: Do not use water jet.

Incompatible materials

: Strong oxidisers

Transport in bulk according to IMO instruments

: Not available.

Section 15. Regulatory information			
The hazard classification of this material is in accordance with Specification for classification and labeling of chemicals-Part 1: General rule (GB 30000 series)			
Refer to below China regulations (if applicable):			
The General Rules for preparation of precautionary label for Chemicals (GB 15258-2009)			
Regulations on the Safe Management of Hazardous Chemicals			
Measures for the Environmental Management Registration of New Chemical Substances			
Inventory list			
Australia inventory (AIIIC)	:	All components are listed or exempted.	
Canada inventory (DSL-NDSL)	:	All components are listed or exempted.	
China inventory (IECSC)	:	All components are listed or exempted.	
Japan inventory (CSCL)	:	Not determined.	
Japan inventory (Industrial Safety and Health Act)	:	All components are listed or exempted.
