

HYBOOST® 299

Entec Polymers - Black Pigment Masterbatch

Sunday, November 3, 2019

General Information

Product Description

HyBoost-299 is a utility black manufactured in part from recycled PE resin and would not be considered for critical applications. HyBoost-299 is a low cost PE black.

Description

Masterbatch Black concentrate based on PE with 50% Carbon Black blend.

Applications

HyBoost-299 can be used in thick films, injection molding, blow molding and other thicker section parts. HyBoost-299 can be used in thicker films although some processors have been able to use it at 1mil with some success.

General

Material Status	• Commercial: Active
Availability	• North America

ASTM & ISO Properties ¹

Additives General		Nominal Value	Unit
Additives Category	Masterbatch -- Pigment -- Black		
Carrier Resin	Polyethylene or ethylene-olefin copolymer (PE)		
Additives Physical		Nominal Value	Unit
Additive Concentration		50	%
Chemical Description	Carbon Black		

Notes

¹ Typical properties: these are not to be construed as specifications.
