

## Tosaf ME81852

TOSAF Compounds Ltd. - White Pigment Masterbatch

Sunday, November 3, 2019

### General Information

#### Product Description

ME81852 White MB is suitable for Coloring films and injected parts of various types of polyolefins.

Designed especially for indoor items.

#### General

|                 |                        |                 |                 |
|-----------------|------------------------|-----------------|-----------------|
| Material Status | • Commercial: Active   |                 |                 |
| Availability    | • Africa & Middle East | • Europe        | • North America |
|                 | • Asia Pacific         | • Latin America |                 |

### ASTM & ISO Properties <sup>1</sup>

| Additives General      | Nominal Value                                      | Unit |
|------------------------|----------------------------------------------------|------|
| Additives Category     | Masterbatch -- Pigment -- White                    |      |
| Carrier Resin          | Polyethylene or ethylene-olefin copolymer (PE)     |      |
| Recommended for Use In | • Polyethylene or ethylene-olefin copolymer (PE)   |      |
|                        | • Polypropylene or propylene-olefin copolymer (PP) |      |

| Additives Physical                        | Nominal Value | Unit              | Test Method |
|-------------------------------------------|---------------|-------------------|-------------|
| Density                                   | 2.35          | g/cm <sup>3</sup> | ASTM D792   |
| Melt Mass-Flow Rate (MFR) (190°C/2.16 kg) | 20            | g/10 min          | ASTM D1238  |
| Maximum Processing Temperature            | 536           | °F                |             |

#### Notes

<sup>1</sup> Typical properties: these are not to be construed as specifications.
