

## Technical Data Sheet

### CELLIDOR CP 300.02-16

|                        |                                             |
|------------------------|---------------------------------------------|
| Base Polymer           | CelluloseAcetatePropionate                  |
| Filler/Additive System | phthalate-free plasticiser,light stabiliser |
| Market Segment         | Medical / Personal Care                     |
| Typical Applications   | various                                     |

|                               |                                                                                    |
|-------------------------------|------------------------------------------------------------------------------------|
| Pre-Drying Conditions         | in an air circulating dryer 50-80 °C<br>for 2-4 h<br>dependant on moisture content |
| Processing Injection Moulding | melt temperature 180-230 °C<br>mould temperature 40-80 °C                          |
| Storage                       | dry, protected from light                                                          |
